

Scale 1:50 000. Includes contact information for the Geological Survey of Sweden (SGU), such as 'Huvudkontor', 'Fälthöjden', 'Fälthöjden 10', and 'Fälthöjden 11'. It also contains a small inset map and a scale bar.

Legend for the geological map, divided into sections: 'Svevekkarens bergarter' (Svecofennoscandian rocks), 'FÖREKLAD BESKRIVNING' (Legend description), 'GEOLOGI' (Geology), 'BERGARTER' (Rock types), and 'OMVANDLINGAR' (Metamorphisms). It lists various rock types like 'Metavulkanit, felsisk, lagrad' and 'Granit, ögonförande' with corresponding symbols and colors.

Section titled 'FÖREKLAD BESKRIVNING' (Legend description) containing detailed text about the geological context, including 'INLEDNING' (Introduction), 'GEOLOGI' (Geology), and 'STRUKTURGEOLOGI' (Structural geology). It discusses the tectonic and magmatic history of the region.

Section titled 'Berggrundskartan 12 E Säfsnäs SO' (Geological map 12 E Säfsnäs SO). It includes a 'Bedrock map', 'Skala 1:50 000', a 'Förenklad metamor och strukturell översiktskarta' (Simplified metamorphic and structural overview map), and 'SGU serie Af nr 190 BERGRUNDSKARTAN 12 E SÄFSNÄS SO'. It features a smaller map of Sweden and a detailed legend for the overview map.
